

# Clearing Cache

## Firefox

- Click on the “Tools” menu
- Select “Options”
- Select the “Cache” tab
- Click on the “Clear Cache Now” button—you may have to wait several second until the box appears grayed out.
- Click “OK”

## Internet Explorer

- Click on the “Tools” menu
- Select “Internet Options”
- Select the “General” tab
- In the section labeled “Temporary Internet Files” click the button labeled “Delete Files”; in the pop-up window, check the box labeled “Delete all offline content”; click on the “OK” button
- Click “OK” at the bottom of the “Internet Options” window

## Netscape

- Click on the “Tools” menu
- Select “Options”
- Click on the “Privacy” icon
- Click on the “Clear” button to the right of the word Cache
- The browser may ask you if it is OK to permanently delete the cache; say “OK”
- Click on the “OK” button at the bottom of the “Options” window
