

Enable Cookies

Firefox

- Click on the “Tools” menu
- Select “Options”
- Select the “Cookies” tab
- Click on the box indicating “Allow sites to set cookies.”
- Click “OK”

Internet Explorer

- Click on the “Tools” menu
- Select “Internet Options”
- Select the “Privacy” tab
- You can move the slider to select varying levels of privacy. “Medium” should be sufficient, but you may need to move the slider down a notch or two.
- Click “OK” at the bottom of the “Internet Options” window when finished

Netscape

- Click on the “Tools” menu
- Select “Options”
- Click on the “Site Controls” icon
- Select the “Site List” tab
- In the “Web Features” box make sure that the box marked “Allow Cookies” has a check next to it
- Click on the “OK” button at the bottom of the window
