Workshop: Empowering Self-Regulation Practices Through Generative AI

12 - 1 pm, Wednesday, March 26th |
Innovation Hub (LIB 158)

Questions? Contact Becky Thoms, Research Publishing & Impact | becky.thoms@usu.edu

This workshop introduces participants to the role of generative AI in enhancing self-regulated learning practices. Through interactive, hands-on activities, attendees will learn how to leverage generative AI tools to effectively plan, organize, and track their tasks.

What You Will Gain From This Workshop

- How to use generative AI tools to enhance identified self-regulated learning practices.
- Gain confidence in using generative AI to set learning goals, develop time management strategies, and monitor their progress.

Learn More About The Innovation Hub

The Innovation Hub is an adaptable learning space that brings together innovative technologies to support teaching, research, and creation at the individual or curricular level. Whether looking for a place to create, collaborate, or innovate, the Innovation Hub is open to all USU students, faculty, and staff.
