National Retro Day

National Retro Day invites us to celebrate the styles, culture, and memories of decades past. It's a chance to unplug from the endless scroll of social media notifications and step back into a time when life moved a little differently — when memories were captured in print, not pixels, and community meant something you could hold in your hands.

1981 Buzzer Yearbook

This year, we're marking the occasion with a look at the **1981 Buzzer**, Utah State University's student yearbook from that year. Flip through its pages and get a glimpse of what campus life looked like for USU students over four decades ago — the fashions, the faces, the events, and the everyday moments that defined a generation of Aggies. The 1981 Buzzer is just one piece of USU Libraries' rich digital collections, where you can explore historical documents, photographs, publications, and more that tell the story of our university and region.
